

## OUR FAMILY APPROACH

When we plan for you, we become part of your family:

- ◆ We provide high quality patient-centered non-medical care planning and reporting
- ◆ We accommodate your needs and schedules
- ◆ We meet any way that will save you time and worry: Home, Work, Skype, Teleconference, Email
- ◆ We arrange services or coach the do-it-your-selfer

Our passion is to see your loved one safe and happy in a care setting of their own choosing, of your blessing, and where all stakeholders have peace of mind.

Thomas M. Lorenz  
Owner

## WHAT THEY ARE SAYING

"I had care of my total care dependent mother in Michigan. Tom took it upon himself to assist me in a area I had no experience in. I am truly grateful for Tom's help and support during a very trying time." Dan H., Graham, NC.

## OUR CONCEIRGE MENU OF SERVICES

**BE HOME 4EVER** can plan and help you manage your loved one's Home and Community Based Services (HCBS):

- ◆ Emergency care planning/coordination
- ◆ Community. VA. and private agency navigation, planning, service advocacy
- ◆ Patient-centered Care Planning and Coordination for Home / EMS / Hospital Discharge / Rehab / Home Health
- ◆ Planning for transportation, shopping, pharmacy, nutrition, doctor, day care, 24/7 care, bill pay/financial care, legal care, property management, social and spiritual care coordination
- ◆ Planning, coordination and verification of durable medical equipment and care agencies
- ◆ Home modification assessments, planning and contractor coordination
- ◆ Technology/Cell phone apps / PERS assessments and coordination of devices and systems for independence
- ◆ Life review video, End of Life, funerals planning

Unexpected health events followed by unplanned discharges and poor transitions between care settings make it likely that another event will occur requiring more caregiver time. Searching and planning non-medical services for your loved one can be very challenging. Imagine an affordable Gerontologist planner-coach that will shoulder as much of that burden as you direct from the workplace, or Skype, or any other medium that saves you time and hardship! If you can imagine, we can make your life easier and give you greater peace of mind. [For a free phone or email consultation use our contact information below!](#)

# BE HOME 4EVER, INC.

*"Love Your Home, Live Your Life"*

Tom Lorenz, MA Gerontology, is the founder and owner of Be Home 4Ever. Tom is a senior care consultant that will help you plan your loved one's care and find the services they need to live in a care setting of their choosing.

I understand the difficulties families face when suddenly presented with an unanticipated care situation. It often becomes an impossible task to balance work schedules, family needs, budgets, and after all of these considerations and a hard workday, there is still the difficulty of finding and interviewing service providers. I was inspired to create BeHome4Ever when my mother needed care and all of her children, including me, were located out of town. I recall looking in the phone book and seeing much of what she needed but not being able to find anyone we could trust to pull it all together and no vacation days left to personally contribute to the effort. Please give me a call today and let's briefly talk over the phone about our family approach in this brochure, and how we can help you craft a better story for you and your loved one.

## START THE CONVERSATION

**Compassion, caring, and understanding win the day!**

- 1. Use a familiar example to both persons of a similar situation and ask how your loved one would deal with it.**
- 2. Make it about you and their recommendations for your participation in their health care needs.**
- 3. Active listening, rethink options together, and don't dominate the conversation. Seek help for knowing options.**
- 4. Allow time for your loved one to think and reply to you. Be patient and soft.**
- 5. A servant's heart is key to success.**
